

Navigate the CDS Declaration Instructions for Final Supplementary Declarations (FSD).

When completing a CDS Final Supplementary Declaration (FSD), it is recommended that you:

- Begin with the Declaration Category data set table in [Appendix 24](#) for the FSD.
- The Index list for the 4-digit Procedure Code in [Appendix 1: DE 1/10: Requested and Previous Procedure Codes](#) should then be used to identify the appropriate procedure code to be declared in DE 1/10.
- The [DE 1/10 to DE 1/11 Correlation Matrix](#) should then be used to see which Additional Procedure Code is permitted for use with the 4-digit Procedure Code.
- The Index List for the Additional Procedure Code in [Appendix 2: DE 1/11: Additional Procedure Codes](#) should be used, from the list of those permitted with the DE 1/10 Procedure Code, to identify any supplementary conditions that apply to the Additional Procedure Code.
- Examine [Appendix 4: DE 2/2: Additional Information \(AI\) Statement Codes](#) to identify any additional information to be declared, as defined in the Procedure and Additional Procedure Code completion instructions.
- The main [CDS Declaration Completion Instructions for Final Supplementary Declarations](#) should be used in conjunction with the additional completion instructions provided in [Appendix 1: DE 1/10: Requested and Previous Procedure Codes](#) and [Appendix 2: DE 1/11: Additional Procedure Codes](#) to complete the FSD.
- Where the completion rules for a specific data element in [Appendix 1: DE 1/10: Requested and Previous Procedure Codes](#) and [Appendix 2: DE 1/11: Additional Procedure Codes](#) specify different rules to the main [data element completion guidance](#) or other appendices, the rules specified in [Appendices 1 and 2](#) take precedence.
- Complete the FSD with continued reference to the appropriate Appendices (please see the [Appendices Index list](#) for details).
