

## **The CPTPP Origin Reference Document Version 1.2, dated 10<sup>th</sup> December 2024**

### **Overview:**

1. This document is the relevant origin reference document referred to in column 3 of the table in Schedule 1 of the Customs Tariff (Preferential Trade Arrangements) (EU Exit) Regulations 2020 (“the Regulations”) for the Comprehensive and Progressive Agreement for Trans-Pacific Partnership, done at Santiago on 8 March 2018 , including the Protocol on the Accession of the United Kingdom of Great Britain and Northern Ireland to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership, signed on 16 July 2023 (“the Agreement”).
2. Section A of this document lists the conditions which goods must meet in order to qualify as originating for the purposes of the Agreement, in accordance with regulation 6 of the Regulations.
3. Section B of this document sets out the requirements and conditions for proving that goods qualify as originating goods, in accordance with regulation 14 of the Regulations.
4. In this document, unless otherwise specified, words and expressions have the meaning given in the Regulations.
5. This document takes effect from the date on which the Accession Protocol of the United Kingdom of Great Britain and Northern Ireland to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership, signed on 16 July 2023 (“UK Accession Protocol”), enters into force for the United Kingdom, in accordance with Article 21 of the UK Accession Protocol.

**Section A**  
**RULES OF ORIGIN**

*Article 1*  
**Definitions**

For the purposes of this Origin Reference Document:

- (a) “aquaculture” means the farming of aquatic organisms, including fish, molluscs, crustaceans, other aquatic invertebrates and aquatic plants from seed stock such as eggs, fry, fingerlings or larvae, by intervention in the rearing or growth processes to enhance production such as regular stocking, feeding or protection from predators;
- (b) “CPTPP Agreement” means the Comprehensive and Progressive Agreement for Trans-Pacific Partnership, signed on 8th March 2018, including the Protocol on the Accession of the United Kingdom of Great Britain and Northern Ireland to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership, signed on 16th July 2023 by Australia, Brunei Darussalam, Canada, the Republic of Chile, Japan, Malaysia, the United Mexican States, New Zealand, the Republic of Peru, the Republic of Singapore, the Socialist Republic of Viet Nam and the United Kingdom of Great Britain and Northern Ireland, referred to in Column 1 of the table in Schedule 1 of the Customs Tariff (Preferential Trade Arrangements) (EU Exit) Regulations 2020;
- (c) “customs administration” means the competent authority that is responsible under the laws of a Party for the administration of customs laws, regulations and, where applicable, policies, and for the United Kingdom means His Majesty’s Revenue and Customs and if relevant, Border Force and the National Crime Agency, or where relevant, any other authority responsible for customs matters within its territory;
- (d) “Customs Valuation Agreement” means the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade 1994, set out in Annex 1A to the Agreement Establishing the World Trade Organization;
- (e) “days” means calendar days;
- (f) “fungible goods or materials” means goods or materials that are interchangeable for commercial purposes and whose properties are essentially identical;
- (g) “Generally Accepted Accounting Principles” means those principles recognised by consensus or with substantial authoritative support in the territory of a Party with respect to the recording of revenues, expenses, costs, assets and liabilities; the disclosure of information; and the preparation of financial statements. These principles may encompass broad guidelines for general application, as well as detailed standards, practices and procedures;
- (h) “good” means any merchandise, product, article or material;
- (i) “Harmonized System 2012 (HS 2012)” means the 2012 Edition of the Harmonized

Commodity Description and Coding System, including its General Rules of Interpretation, Section Notes, Chapter Notes and Subheading Notes as adopted and implemented by the Parties in their respective laws;

- (j) “indirect material” means a material used in the production, testing or inspection of a good but not physically incorporated into the good; or a material used in the maintenance of buildings or the operation of equipment, associated with the production of a good, including:
- (i) fuel, energy, catalysts and solvents;
  - (ii) equipment, devices and supplies used to test or inspect the good;
  - (iii) gloves, glasses, footwear, clothing, safety equipment and supplies;
  - (iv) tools, dies and moulds;
  - (v) spare parts and materials used in the maintenance of equipment and buildings;
  - (vi) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings; and
  - (vii) any other material that is not incorporated into the good but the use of which in the production of the good can reasonably be demonstrated to be a part of that production;
- (k) “material” means a good that is used in the production of another good;
- (l) “non-originating good” or “non-originating material” means a good or material that does not qualify as originating in accordance with this Origin Reference Document;
- (m) “originating good” or “originating material” means a good or material that qualifies as originating in accordance with this Origin Reference Document;
- (n) “Parties” means the United Kingdom and those countries, from time to time, that are party to the Comprehensive and Progressive Agreement on Trans-Pacific Partnership and for whom the Protocol on the Accession of the United Kingdom of Great Britain and Northern Ireland to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership, signed at Auckland and Bandar Seri Begawan on 16 July 2023, has entered into force, each a “Party”;<sup>1</sup>
- (o) “packing materials and containers for shipment” means goods used to protect another good during its transportation, but does not include the packaging materials or containers in which a good is packaged for retail sale;

---

<sup>1</sup> A list of the countries for whom the Protocol on the Accession of the United Kingdom of Great Britain and Northern Ireland to the Comprehensive and Progressive Agreement for Trans-Pacific Partnership has entered into force is maintained at <https://www.gov.uk/government/collections/the-uk-and-the-comprehensive-and-progressive-agreement-for-trans-pacific-partnershipcptpp>.

- (p) “person” means a natural person or an enterprise;
- (q) “preferential tariff treatment” means the customs duty rate applicable to an originating good, pursuant to each Party’s Tariff Schedule set out in Annex 2-D (Tariff Commitments) of the CPTPP Agreement;
- (r) “Preferential Duty Tariff Table” means the table in Annex 1 of the Preferential Tariff document referred to in column 2 of the table in Schedule 1 of the Regulations;
- (s) “producer” means a person who engages in the production of a good;
- (t) “production” means operations including growing, cultivating, raising, mining, harvesting, fishing, trapping, hunting, capturing, collecting, breeding, extracting, aquaculture, gathering, manufacturing, processing or assembling a good;
- (u) “recovered material” means a material in the form of one or more individual parts that results from:
  - (i) the disassembly of a used good into individual parts; and
  - (ii) the cleaning, inspecting, testing or other processing of those parts as necessary for improvement to sound working condition;
- (v) “remanufactured good” means a good classified in HS 2012 Chapters 84 through 90 or under heading 94.02 except goods classified under HS headings 84.18, 85.09, 85.10, and 85.16, 87.03 or subheadings 8414.51, 8450.11, 8450.12, 8508.11, and 8517.11, that is entirely or partially composed of recovered materials and:
  - (i) has a similar life expectancy and performs the same as or similar to such a good when new; and
  - (ii) has a factory warranty similar to that applicable to such a good when new;
- (w) “territory” has for each Party the meaning set out at Annex 1-A (Party Specific Definitions) of the CPTPP Agreement, and for the United Kingdom means:
  - (i) the territory of the United Kingdom of Great Britain and Northern Ireland including its territorial sea and airspace;
  - (ii) all the maritime areas beyond the territorial sea of the United Kingdom, including the seabed and subsoil of those areas, over which the United Kingdom may exercise sovereign rights or jurisdiction in accordance with international law; and
  - (iii) the Bailiwick of Guernsey, the Bailiwick of Jersey, and the Isle of Man (including their airspace and the territorial sea adjacent to them), territories for whose international relations the United Kingdom is responsible and which form part of the customs territory of the United

Kingdom;

- (x) “transaction value” means the price actually paid or payable for the good when sold for export or other value determined in accordance with the Customs Valuation Agreement;
- (y) “value of the good” means the transaction value of the good excluding any costs incurred in the international shipment of the good.

*Article 2*  
**Originating Goods**

Except as otherwise provided in this Origin Reference Document, a good is originating if it is:

- (a) wholly obtained or produced entirely in the territory of one or more of the Parties as established in Article 3 (Wholly Obtained or Produced Goods);
- (b) produced entirely in the territory of one or more of the Parties, exclusively from originating materials; or
- (c) produced entirely in the territory of one or more of the Parties using non-originating materials provided the good satisfies all applicable requirements of Annex II (Product-Specific Rules of Origin),

and the good satisfies all other applicable requirements of this Origin Reference Document.

*Article 3*  
**Wholly Obtained or Produced Goods**

For the purposes of Article 2 (Originating Goods), a good is wholly obtained or produced entirely in the territory of one or more of the Parties if it is:

- (a) a plant or plant good, grown, cultivated, harvested, picked or gathered there;
- (b) a live animal born and raised there;
- (c) a good obtained from a live animal there;
- (d) an animal obtained by hunting, trapping, fishing, gathering or capturing there;
- (e) a good obtained from aquaculture there;
- (f) a mineral or other naturally occurring substance, not included in subparagraphs (a) through (e), extracted or taken from there;
- (g) fish, shellfish and other marine life taken from the sea, seabed or subsoil outside the territories of the Parties and, in accordance with international law, outside the territorial sea of non-Parties by vessels that are registered, listed or recorded with a Party and entitled to fly the flag of that Party;

- (h) a good produced from goods referred to in subparagraph (g) on board a factory ship that is registered, listed or recorded with a Party and entitled to fly the flag of that Party;
- (i) a good other than fish, shellfish and other marine life taken by a Party or a person of a Party from the seabed or subsoil outside the territories of the Parties, and beyond areas over which non-Parties exercise jurisdiction provided that Party or person of that Party has the right to exploit that seabed or subsoil in accordance with international law;
- (j) a good that is:
  - (i) waste or scrap derived from production there; or
  - (ii) waste or scrap derived from used goods collected there, provided that those goods are fit only for the recovery of raw materials; and
- (k) a good produced there, exclusively from goods referred to in subparagraphs (a) through (j), or from their derivatives.

#### *Article 4*

#### **Treatment of Recovered Materials Used in Production of a Remanufactured Good**

1. A recovered material derived in the territory of one or more of the Parties shall be treated as originating when it is used in the production of, and incorporated into, a remanufactured good.
2. For greater certainty:
  - (a) a remanufactured good is originating only if it satisfies the applicable requirements of Article 2 (Originating Goods); and
  - (b) a recovered material that is not used or incorporated in the production of a remanufactured good is originating only if it satisfies the applicable requirements of Article 2 (Originating Goods).

#### *Article 5*

#### **Regional Value Content**

1. Where a regional value content requirement is specified in this Origin Reference Document, including related Annexes, to determine whether a good is originating, the regional value content is calculated using one of the following methods:
  - (a) Focused Value Method: Based on the Value of Specified Non-Originating Materials

$$RVC = \frac{\text{Value of the Good} - \text{FVNM}}{\text{Value of the Good}} \times 100$$

- (b) Build-down Method: Based on the Value of Non-Originating Materials

$$RVC = \frac{\text{Value of the Good} - \text{VNM}}{\text{Value of the Good}} \times 100$$

- (c) Build-up Method: Based on the Value of Originating Materials

$$RVC = \frac{\text{VOM}}{\text{Value of the Good}} \times 100$$

or

- (d) Net Cost Method (for Automotive Goods Only)

$$RVC = \frac{\text{NC} - \text{VNM}}{\text{NC}} \times 100$$

where:

“**RVC**” is the regional value content of a good, expressed as a percentage;

“**VNM**” is the value of non-originating materials, including materials of undetermined origin, used in the production of the good;

“**NC**” is the net cost of the good determined in accordance with Article 9 (Net Cost);

“**FVNM**” is the value of non-originating materials, including materials of undetermined origin, specified in the applicable product-specific-rule (PSR) in Annex II (Product-Specific Rules of Origin) and used in the production of the good. For greater certainty, non-originating materials that are not specified in the applicable PSR in Annex II (Product-Specific Rules of Origin) are not taken into account for the purpose of determining FVNM; and

“**VOM**” is the value of originating materials used in the production of the good in the territory of one or more of the Parties.

2. All costs considered for the calculation of regional value content shall be recorded and maintained in conformity with the Generally Accepted Accounting Principles applicable in the territory of a Party where the good is produced.

#### *Article 6*

#### **Materials Used in Production**

1. If a non-originating material undergoes further production such that it satisfies the requirements of this Origin Reference Document, the material is treated as originating when

determining the originating status of the subsequently produced good, regardless of whether that material was produced by the producer of the good.

2. If a non-originating material is used in the production of a good, the following may be counted as originating content for the purpose of determining whether the good meets a regional value content requirement:

- (a) the value of processing of the non-originating materials undertaken in the territory of one or more of the Parties; and
- (b) the value of any originating material used in the production of the non-originating material undertaken in the territory of one or more of the Parties.

#### *Article 7*

#### **Value of Materials Used in Production**

1. For the purposes of this Origin Reference Document, the value of a material is:

- (a) for a material imported by the producer of the good, the transaction value of the material at the time of importation, including the costs incurred in the international shipment of the material;
- (b) for a material acquired in the territory where the good is produced:
  - (i) the price paid or payable by the producer in the Party where the producer is located;
  - (ii) the value as determined for an imported material in subparagraph (a); or
  - (iii) the earliest ascertainable price paid or payable in the territory of the Party; or
- (c) for a material that is self-produced:
  - (i) all the costs incurred in the production of the material, which includes general expenses; and
  - (ii) an amount equivalent to the profit added in the normal course of trade, or equal to the profit that is usually reflected in the sale of goods of the same class or kind as the self-produced material that is being valued.

#### *Article 8*

#### **Further Adjustments to the Value of Materials**

1. For an originating material, the following expenses may be added to the value of the material, if not included under Article 7 (Value of Materials Used in Production):

- (a) the costs of freight, insurance, packing and all other costs incurred to transport the material to the location of the producer of the good;

- (b) duties, taxes and customs brokerage fees on the material, paid in the territory of one or more of the Parties, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, which include credit against duty or tax paid or payable; and
  - (c) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of reusable scrap or by-product.
2. For a non-originating material or material of undetermined origin, the following expenses may be deducted from the value of the material:
- (a) the costs of freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer of the good;
  - (b) duties, taxes and customs brokerage fees on the material paid in the territory of one or more of the Parties, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, which include credit against duty or tax paid or payable; and
  - (c) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of reusable scrap or by-product.
3. If the cost or expense listed in paragraph 1 or 2 is unknown or documentary evidence of the amount of the adjustment is not available, then no adjustment is allowed for that particular cost.

*Article 9*  
**Net Cost**

1. If Annex II (Product-Specific Rules of Origin) specifies a regional value content requirement to determine whether an automotive good of HS 2012 subheading 8407.31 through 8407.34, 8408.20, subheading 8409.91 through 8409.99, heading 87.01 through 87.09 or heading 87.11 is originating, the requirement to determine the origin of that good based on the Net Cost Method is calculated as set out under Article 5 (Regional Value Content).
2. For the purposes of this Article:
- (a) “net cost” means total cost minus sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs that are included in the total cost; and
  - (b) “net cost of the good” means the net cost that can be reasonably allocated to the good, using one of the following methods:
    - (i) calculating the total cost incurred with respect to all automotive goods produced by that producer, subtracting any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs that are included in the total cost of all

those goods, and then reasonably allocating the resulting net cost of those goods to the good;

- (ii) calculating the total cost incurred with respect to all automotive goods produced by that producer, reasonably allocating the total cost to the good, and then subtracting any sales promotion, marketing and after-sales service costs; royalties, shipping and packing costs, and non-allowable interest costs that are included in the portion of the total cost allocated to the good; or
- (iii) reasonably allocating each cost that forms part of the total cost incurred with respect to the good, so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs, provided that the allocation of all those costs is consistent with the provisions regarding the reasonable allocation of costs set out in Generally Accepted Accounting Principles.

3. For the purposes of the Net Cost Method for motor vehicles of HS 2012 heading 87.01 through 87.06 or heading 87.11, the calculation may be averaged over the producer's fiscal year using any one of the following categories, on the basis of all motor vehicles in the category or only those motor vehicles in the category that are exported to the territory of another Party:

- (a) the same model line of motor vehicles in the same class of motor vehicles produced in the same plant in the territory of a Party;
- (b) the same class of motor vehicles produced in the same plant in the territory of a Party;
- (c) the same model line of motor vehicles produced in the territory of a Party; or
- (d) any other category as the Parties may decide.

4. For the purposes of the Net Cost Method in paragraphs 1 and 2, for automotive materials of HS 2012 subheading 8407.31 through 8407.34, 8408.20, heading 84.09, 87.06, 87.07, or 87.08, produced in the same plant, a calculation may be averaged:

- (a) over the fiscal year of the motor vehicle producer to whom the good is sold;
- (b) over any quarter or month; or
- (c) over the fiscal year of the producer of the automotive material,

provided that the good was produced during the fiscal year, quarter or month forming the basis for the calculation, in which:

- (i) the average in subparagraph (a) is calculated separately for those goods sold to one or more motor vehicle producers; or

- (ii) the average in subparagraph (a) or (b) is calculated separately for those goods that are exported to the territory of another Party.

5. For the purposes of this Article:

(a) “class of motor vehicles” means any one of the following categories of motor vehicles:

- (i) motor vehicles classified under subheading 8701.20, motor vehicles for the transport of 16 or more persons classified under subheading 8702.10 or 8702.90, and motor vehicles classified under subheading 8704.10, 8704.22, 8704.23, 8704.32 or 8704.90, or heading 87.05 or 87.06;
- (ii) motor vehicles classified under subheading 8701.10 or subheadings 8701.30 through 8701.90;
- (iii) motor vehicles for the transport of 15 or fewer persons classified under subheading 8702.10 or 8702.90, and motor vehicles classified under subheading 8704.21 or 8704.31;
- (iv) motor vehicles classified under subheadings 8703.21 through 8703.90; or
- (v) motor vehicles classified under heading 87.11.

(b) “model line of motor vehicles” means a group of motor vehicles having the same platform or model name;

(c) “non-allowable interest costs” means interest costs incurred by a producer that exceed 700 basis points above the yield on debt obligations of comparable maturities issued by the central level of government of the Party in which the producer is located;

(d) “reasonably allocate” means to apportion in a manner appropriate under Generally Accepted Accounting Principles;

(e) “royalty” means payments of any kind, including payments under technical assistance or similar agreements, made as consideration for the use or right to use any copyright; literary, artistic or scientific work; patent; trademark; design; model; plan; secret formula or process, excluding those payments under technical assistance or similar agreements that can be related to specific services such as:

- (i) personnel training, without regard to where that training is performed; or
- (ii) engineering, tooling, die-setting, software design and similar computer services, or other services, if performed in the territory of one or more of the Parties;

- (f) “sales promotion, marketing and after-sales service costs” means the following costs related to sales promotion, marketing and after-sales service:
- (i) sales and marketing promotion; media advertising; advertising and market research; promotional and demonstration materials; exhibits; sales conferences, trade shows and conventions; banners; marketing displays; free samples; sales, marketing and after-sales service literature (good brochures, catalogues, technical literature, price lists, service manuals and sales aid information); establishment and protection of logos and trademarks; sponsorships; wholesale and retail restocking charges; and entertainment;
  - (ii) sales and marketing incentives; consumer, retailer or wholesaler rebates; and merchandise incentives;
  - (iii) salaries and wages; sales commissions; bonuses; benefits (for example, medical, insurance or pension benefits); travelling and living expenses; and membership and professional fees for sales promotion, marketing and after-sales service personnel;
  - (iv) recruiting and training of sales promotion, marketing and after-sales service personnel and after-sales training of customers’ employees, if those costs are identified separately for sales promotion, marketing and after-sales service of goods on the financial statements or cost accounts of the producer;
  - (v) liability insurance for goods;
  - (vi) office supplies for sales promotion, marketing and after-sales service of goods, if those costs are identified separately for sales promotion, marketing and after-sales service of goods on the financial statements or cost accounts of the producer;
  - (vii) telephone, mail and other communications, if those costs are identified separately for sales promotion, marketing and after-sales service of goods on the financial statements or cost accounts of the producer;
  - (viii) rent and depreciation of sales promotion, marketing and after-sales service offices and distribution centres;
  - (ix) property insurance premiums, taxes, cost of utilities, and repair and maintenance of sales promotion, marketing and after-sales service offices and distribution centres, if those costs are identified separately for sales promotion, marketing and after-sales service of goods on the financial statements or cost accounts of the producer; and
  - (x) payments by the producer to other persons for warranty repairs;

- (g) “shipping and packing costs” means the costs incurred to pack a good for shipment and to ship the good from the point of direct shipment to the buyer, excluding costs to prepare and package the good for retail sale; and
- (h) “total cost” means all product costs, period costs and other costs for a good incurred in the territory of one or more of the Parties, where:
- (i) product costs are costs that are associated with the production of a good and include the value of materials, direct labour costs and direct overheads;
  - (ii) period costs are costs, other than product costs, that are expensed in the period in which they are incurred, such as selling expenses and general and administrative expenses; and
  - (iii) other costs are all costs recorded on the books of the producer that are not product costs or period costs, such as interest.

Total cost does not include profits that are earned by the producer, regardless of whether they are retained by the producer or paid out to other persons as dividends, or taxes paid on those profits, including capital gains taxes.

#### *Article 10* **Accumulation**

1. A good is regarded as originating if the good is produced in the territory of one or more of the Parties by one or more producers, provided that the good satisfies the requirements in Article 2 (Originating Goods) and all other applicable requirements in this Origin Reference Document.
2. An originating good or material of one or more of the Parties that is used in the production of another good in the territory of another Party is considered as originating in the territory of the other Party.
3. Production undertaken on a non-originating material in the territory of one or more of the Parties by one or more producers may contribute toward the originating content of a good for the purpose of determining its origin, regardless of whether that production was sufficient to confer originating status to the material itself.

#### *Article 11* **De Minimis**

1. Except as provided in paragraphs 4 to 7, a good that contains non-originating materials that do not satisfy the applicable change in tariff classification requirement specified in Annex II (Product-Specific Rules of Origin) for the good shall nonetheless be regarded as an originating good if the value of all those materials does not exceed 10 per cent of the value of the good, as defined under Article 1 (Definitions), and the good meets all the other applicable requirements of this Origin Reference Document.

2. Paragraph 1 applies only when using a non-originating material in the production of another good.
3. If a good described in paragraph 1 is also subject to a regional value content requirement, the value of those non-originating materials shall be included in the value of non-originating materials for the applicable regional value content requirement.
4. A textile or apparel good classified outside of Chapters 61 through 63 of the Harmonized System 2012 that contains non-originating materials that do not satisfy the applicable change in tariff classification requirement specified in Annex II (Product-Specific Rules of Origin), shall nonetheless be considered to be an originating good if the total weight of all those materials is not more than 10 per cent of the total weight of the good and the good meets all the other applicable requirements of this Origin Reference Document.
5. A textile or apparel good classified in Chapters 61 through 63 of the Harmonized System 2012 that contains non-originating fibres or yarns in the component of the good that determines the tariff classification of the good that do not satisfy the applicable change in tariff classification set out in Annex II (Product-Specific Rules of Origin), shall nonetheless be considered to be an originating good if the total weight of all those fibres or yarns is not more than 10 per cent of the total weight of that component and the good meets all the other applicable requirements of this Origin Reference Document.
6. Notwithstanding paragraphs 4 and 5, a good described in paragraph 4 containing elastomeric yarn or a good described in paragraph 5 containing elastomeric yarn in the component of the good that determines the tariff classification of the good shall be considered to be an originating good only if such yarns are wholly formed in the territory of one or more of the Parties.<sup>2</sup>
7. This article shall not apply to:
  - (a) non-originating materials of HS 2012 heading 04.01 through 04.06, or non-originating dairy preparations containing over 10 per cent by dry weight of milk solids of subheading 1901.90 or 2106.90, used in the production of a good of heading 04.01 through 04.06 other than a good of subheading 0402.10 through 0402.29 or 0406.30<sup>3</sup>
  - (b) non-originating materials of HS 2012 heading 04.01 through 04.06, or non-originating dairy preparations containing over 10 per cent by dry weight of milk solids of subheading 1901.90, used in the production of the following goods:

---

<sup>2</sup> For greater certainty, this paragraph shall not be construed to require a material listed in Annex IV (Short Supply List of Products) to be produced from elastomeric yarns wholly formed in the territory of one or more of the Parties.

For the purposes of this paragraph, “wholly formed” means all production processes and finishing operations, beginning with the extrusion of filaments, strips, film or sheet, and including drawing to fully orient a filament or slitting a film or sheet into strip, or the spinning of all fibres into yarn, or both, and ending with a finished yarn or plied yarn.

<sup>3</sup> For greater certainty, milk powder of HS 2012 subheading 0402.10 through 0402.29, and processed cheese of subheading 0406.30, that is originating as a result of the application of the 10 per cent de minimis allowance in Article 11 (De Minimis), shall be an originating material when used in the production of any good of heading 04.01 through 04.06 as referred to in subparagraph (a) or the goods listed in subparagraph (b).

- (i) infant preparations containing over 10 per cent by dry weight of milk solids of subheading 1901.10;
  - (ii) mixes and doughs, containing over 25 per cent by dry weight of butterfat, not put up for retail sale of subheading 1901.20;
  - (iii) dairy preparations containing over 10 per cent by dry weight of milk solids of subheading 1901.90 or 2106.90;
  - (iv) goods of heading 21.05;
  - (v) beverages containing milk of subheading 2202.90; or
  - (vi) animal feeds containing over 10 per cent by dry weight of milk solids of subheading 2309.90;
- (c) non-originating materials of HS 2012 heading 08.05 or subheading 2009.11 through 2009.39, used in the production of a good of subheading 2009.11 through 2009.39 or a fruit or vegetable juice of any single fruit or vegetable, fortified with minerals or vitamins, concentrated or unconcentrated, of subheading 2106.90 or 2202.90;
  - (d) non-originating materials of Chapter 15 of the Harmonized System 2012, used in the production of a good of headings 15.07, 15.08, 15.12, or 15.14; or
  - (e) non-originating peaches, pears or apricots of Chapter 8 or 20 of the Harmonized System 2012, used in the production of a good of heading 20.08.

#### *Article 12*

#### **Fungible Goods or Materials**

1. A fungible good or material shall be treated as originating based on the:
  - (a) physical segregation of each fungible good or material; or
  - (b) use of any inventory management method recognised in the Generally Accepted Accounting Principles if the fungible good or material is commingled, provided that the inventory management method selected is used throughout the fiscal year of the person that selected the inventory management method.

#### **Accessories, Spare Parts, Tools and Instructional or Other Information Materials**

1. For the purpose of determining whether a good is wholly obtained, or satisfies a process or change in tariff classification requirement as set out in Annex II (Product-Specific Rules of Origin), accessories, spare parts, tools or instructional or other information materials, as described in paragraph 4, shall be disregarded; and
2. For the purpose of determining whether a good meets a regional value content requirement, the value of the accessories, spare parts, tools or instructional or other

information materials, as described in paragraph 4, shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

3. A good's accessories, spare parts, tools or instructional or other information materials, as described in paragraph 4, shall be deemed to have the originating status of the good with which they are delivered.

4. For the purposes of this Article, accessories, spare parts, tools, and instructional or other information materials are covered when:

- (a) the accessories, spare parts, tools and instructional or other information materials are classified with, delivered with but not invoiced separately from the good; and
- (b) the types, quantities, and value of the accessories, spare parts, tools and instructional or other information materials are customary for that good.

#### *Article 14*

### **Packaging Materials and Containers for Retail Sale**

1. Packaging materials and containers in which a good is packaged for retail sale, if classified with the good, shall be disregarded in determining whether all the non-originating materials used in the production of the good have satisfied the applicable process or change in tariff classification requirement set out in Annex II (Product-Specific Rules of Origin) or whether the good is wholly obtained or produced.

2. If a good is subject to a regional value content requirement, the value of the packaging materials and containers in which the good is packaged for retail sale, if classified with the good, shall be taken into account as originating or non-originating, as the case may be, in calculating the regional value content of the good.

#### *Article 15*

### **Packing Materials and Containers for Shipment**

Packing materials and containers for shipment shall be disregarded in determining whether a good is originating.

#### *Article 16*

### **Indirect Materials**

An indirect material shall be considered to be originating without regard to where it is produced.

#### *Article 17*

### **Sets of Goods**

1. For a set classified as a result of the application of Rule 3(a) or (b) of the General Rules for the Interpretation of the Harmonized System, the originating status of the set shall be determined in accordance with the product-specific rule of origin that applies to the set.

2. For a set classified as a result of the application of Rule 3(c) of the General Rules for the Interpretation of the Harmonized System, the set shall be originating only if each good in the set is originating and both the set and the goods meet the other applicable requirements of this Origin Reference Document.

3. Notwithstanding paragraph 2, for a set classified as a result of the application of Rule 3(c) of the General Rules for the Interpretation of the Harmonized System, the set shall be originating if the value of all the non-originating goods in the set does not exceed 10 per cent of the value of the set.

4. Notwithstanding paragraphs 1 through 3, and the textile and apparel product-specific rules of origin set out in Annex II (Product-Specific Rules of Origin), textile and apparel goods put up in sets for retail sale, classified as a result of the application of Rule 3 of the General Rules for the Interpretation of the Harmonized System, shall not be regarded as originating goods unless each of the goods in the set is an originating good or the total value of the non-originating goods in the set does not exceed 10 per cent of the value of the set.

5. For the purposes of paragraph 3 and 4:

- (a) the value of non-originating goods in the set shall be calculated in the same manner as the value of non-originating materials in this Origin Reference Document; and
- (b) the value of the set shall be calculated in the same manner as the value of the good in this Origin Reference Document.

#### *Article 18*

### **Transit and Transshipment**

1. An originating good shall retain its originating status if the good has been transported to the importing Party without passing through the territory of a non-Party.

2. If an originating good is transported through the territory of one or more non-Parties, the good shall retain its originating status provided that the good:

- (a) does not undergo any operation outside the territories of the Parties other than: unloading; reloading; separation from a bulk shipment; storing; labelling or marking required by the importing Party; or any other operation necessary to preserve it in good condition or to transport the good to the territory of the importing Party; and
- (b) remains under the control of the customs administration in the territory of a non-Party.

#### *Article 19*

### **Treatment of Short Supply List Materials**

For the purposes of determining whether a textile or apparel good is originating under Article 2(c) (Originating Goods), a material listed in Annex IV (Short Supply List of Products) is originating provided that the material meets any requirement, including any end use requirement, specified in the Annex IV (Short Supply List of Products).

*Article 20*  
**Tariff Differentials**

1. In a case where the preferential duty rate differs among countries for the same originating good as set out in the Preferential Duty Tariff Table, the applicable preferential duty rate will be the rate for the originating good of the Party where the last production process, other than a minimal operation, occurred.
2. For the purposes of this Article, a minimal operation is:
  - (a) an operation to ensure the preservation of a good in good condition for the purposes of transport and storage;
  - (b) packaging, re-packaging, breaking up of consignments or putting up a good for retail sale, including placing a good in bottles, cans, flasks, bags, cases or boxes;
  - (c) mere dilution with water or another substance that does not materially alter the characteristics of the good;
  - (d) collection of goods intended to form sets, assortments, kits or composite goods; and
  - (e) any combination of operations referred to in subparagraphs (a) through (d).
3. Notwithstanding paragraph 1, an importer may make a claim for preferential tariff treatment at either:
  - (a) the highest rate of duty applicable to an originating good from any of the Parties; or
  - (b) the highest rate of duty applicable to an originating good from any Party where a production process occurred.

**Section B**  
**ORIGIN PROCEDURES**

*Article 21*

**Claims for Preferential Tariff Treatment**

1. An importer may make a claim for preferential tariff treatment, based on a certification of origin completed by the exporter, producer or importer, or issued by an issuing authority in accordance with Annex 3-A (Other Arrangements) of the CPTPP Agreement.
2. A certification of origin:
  - (a) need not follow a prescribed format;
  - (b) must be in writing, including electronic format;
  - (c) must specify that the good is both originating and meets the requirements of this Origin Reference Document; and
  - (d) must contain a set of minimum data requirements as set out in Annex I (Minimum Data Requirements).
3. A certification of origin may apply to:
  - (a) a single shipment of a good into the territory of a Party; or
  - (b) multiple shipments of identical goods within any period specified in the certification of origin, but not exceeding 12 months.
4. A certification of origin shall be valid for two years after the date that it was issued.
5. An importer may submit a certification of origin in English. If the certification of origin is not in English, the importing Party may require the importer to submit a translation in the language of the importing Party.

*Article 22*

**Basis of a Certification of Origin**

1. If a producer certifies the origin of a good, the certification of origin shall be completed on the basis of the producer having information that the good is originating.
2. If the exporter is not the producer of the good, a certification of origin may be completed by the exporter of the good on the basis of:
  - (a) the exporter having information that the good is originating; or

- (b) reasonable reliance on the producer's information that the good is originating.
3. A certification of origin may be completed by the importer of the good on the basis of:
- (a) the importer having documentation that the good is originating; or
  - (b) reasonable reliance on supporting documentation provided by the exporter or producer that the good is originating.
4. For greater certainty, nothing in paragraph 1 or 2 shall be construed to allow a Party to require an exporter or producer to complete a certification of origin or provide a certification of origin to another person.

*Article 23*  
**Discrepancies**

A certification of origin shall not be rejected due to minor errors or discrepancies in the certification of origin.

*Article 24*  
**Waiver of Declaration of Origin**

A certificate of origin is not required if:

- (a) the customs value of the importation does not exceed 1,000 United Kingdom pounds for goods imported into the United Kingdom or any higher amount as the importing Party may establish; or
- (b) it is a good for which the importing Party has waived the requirement or does not require the importer to present a certification of origin,

provided that the importation does not form part of a series of importations carried out or planned for the purpose of evading compliance with the importing Party's laws governing claims for preferential tariff treatment under this Origin Reference Document.

*Article 25*  
**Obligations Relating to Importation**

1. Except as otherwise provided for in this Origin Reference Document, for the purpose of claiming preferential tariff treatment, the importer shall:
- (a) make a declaration that the good qualifies as an originating good;
  - (b) have a valid certification of origin in its possession at the time the declaration referred to in subparagraph (a) is made;
  - (c) provide a copy of the certification of origin to the importing Party if required by the Party; and

(d) if required by a Party to demonstrate that the requirements in Article 18 (Transit and Transshipment) have been satisfied, provide relevant documents, such as transport documents, and in the case of storage, storage or customs documents.

2. If the importer has reason to believe that the certification of origin is based on incorrect information that could affect the accuracy or validity of the certification of origin, the importer shall correct the importation document and pay any customs duty and, if applicable, penalties owed.

3. No importing Party shall subject an importer to a penalty for making an invalid claim for preferential tariff treatment if the importer, on becoming aware that such a claim is not valid and prior to discovery of the error by that Party, voluntarily corrects the claim and pays any applicable customs duty under the circumstances provided for in the Party's law.

#### *Article 26*

### **Obligations Relating to Exportation**

1. An exporter or producer that completes a certification of origin shall submit a copy of that certification of origin to the exporting Party, on its request.

2. A false certification of origin or other false information provided by an exporter or a producer to support a claim that a good exported to the territory of another Party is originating may have the same legal consequences, with appropriate modifications, as those that would apply to an importer in its territory that makes a false statement or representation in connection with an importation.

3. If an exporter or a producer has provided a certification of origin and has reason to believe that it contains or is based on incorrect information, the exporter or producer shall promptly notify, in writing, every person and every Party to whom the exporter or producer provided the certification of origin of any change that could affect the accuracy or validity of the certification of origin.

#### *Article 27*

### **Record Keeping Requirements**

1. An importer claiming preferential tariff treatment for a good imported into the territory of a Party shall maintain, for a period of no less than five years from the date of importation of the good:

- (a) the documentation related to the importation, including the certification of origin that served as the basis for the claim; and
- (b) all records necessary to demonstrate that the good is originating and qualified for preferential tariff treatment, if the claim was based on a certification of origin completed by the importer.

2. A producer or exporter that provides a certification of origin shall maintain, for a period of no less than five years from the date the certification of origin was issued, all

records necessary to demonstrate that a good for which the exporter or producer provided a certification of origin is originating.

3. An importer, exporter or producer may choose to maintain the records specified in paragraphs 1 and 2 in any medium that allows for prompt retrieval, including electronic, optical, magnetic or written form in accordance with a Party's laws and regulations.

#### *Article 28*

#### **Determinations on Claims for Preferential Tariff Treatment**

1. An importer may be denied a claim for preferential tariff treatment if:
  - (a) the importing Party determines that the good does not qualify for preferential treatment;
  - (b) pursuant to a verification under Article 3.27 (Verification of Origin) of the CPTPP Agreement, the importing Party has not received sufficient information to determine that the good qualifies as originating;
  - (c) the exporter, producer or importer fails to respond to a written request for information in accordance with Article 3.27 (Verification of Origin) of the CPTPP Agreement;
  - (d) after receipt of a written notification for a verification visit, the exporter or producer does not provide its written consent in accordance with Article 3.27 (Verification of Origin) of the CPTPP Agreement;
  - (e) the importer, exporter or producer fails to comply with the requirements of this Origin Reference Document; or
  - (f) for a textile and apparel good, if, pursuant to a verification under Chapter 4 of the CPTPP Agreement, access or permission for the visit is denied, the importing Party is prevented from completing the visit on the proposed date, and the exporter or producer does not provide an alternative date acceptable to the importing Party, or the exporter or producer does not provide access to the relevant records or facilities during a visit.
2. If an importer is denied a claim for preferential tariff treatment, they shall be issued with a determination that includes the reasons for the determination.
3. A claim for preferential tariff treatment shall not be rejected for the sole reason that the invoice was issued in a non-Party. If an invoice is issued in a non-Party, the certification of origin shall be separate from the invoice.
4. If the competent authority that issued the certification of origin fails to respond to a verification request, the importing Party may deny the claim for preferential tariff treatment.

#### *Article 29*

#### **Refunds and Claims for Preferential Tariff Treatments after Importation**

1. An importer may apply for preferential tariff treatment and a refund of any excess duties paid for a good if the importer did not make a claim for preferential tariff treatment at the time of importation, provided that the good would have qualified for preferential tariff treatment when it was imported into the territory of the Party.

2. As a condition for preferential tariff treatment under paragraph 1, the importer shall be required to:

- (a) make a claim for preferential tariff treatment;
- (b) provide a copy of the certification of origin; and
- (c) provide such other documentation relating to the importation of the good as the importing Party may require,

no later than three years after the date of importation or a longer period if specified in the importing Party's law.

*Article 30*

**Annexes**

The Annexes to this Origin Reference Document are an integral part thereof.

**ANNEX I**  
**MINIMUM DATA REQUIREMENTS**

A certification of origin that is the basis for a claim for preferential tariff treatment under the Comprehensive and Progressive Trans-Pacific Partnership shall include the following elements:

**1. Importer, Exporter or Producer Certification of Origin**

Indicate whether the certifier is the exporter, producer or importer in accordance with Article 21 (Claims for Preferential Treatment).

**2. Certifier**

Provide the certifier's name, address (including country), telephone number and e-mail address.

**3. Exporter**

Provide the exporter's name, address (including country), e-mail address and telephone number if different from the certifier. This information is not required if the producer is completing the certification of origin and does not know the identity of the exporter. The address of the exporter shall be the place of export of the good in a CPTPP country.

**4. Producer**

Provide the producer's name, address (including country), e-mail address and telephone number, if different from the certifier or exporter or, if there are multiple producers, state "Various" or provide a list of producers. A person that wishes for this information to remain confidential may state "Available upon request by the importing authorities". The address of a producer shall be the place of production of the good in a CPTPP country.

**5. Importer**

Provide, if known, the importer's name, address, e-mail address and telephone number. The address of the importer shall be in a CPTPP country.

**6. Description and HS Tariff Classification of the Good**

- (a) Provide a description of the good and the HS tariff classification of the good to the 6-digit level. The description should be sufficient to relate it to the good covered by the certification; and
- (b) If the certification of origin covers a single shipment of a good, indicate, if known, the invoice number related to the exportation.

**7. Origin Criterion**

Specify the rule of origin under which the good qualifies.

**8. Blanket period**

Include the period if the certification covers multiple shipments of identical goods for a specified period of up to 12 months as set out in Article 21 (Claims for Preferential Treatment).

**9. Authorised Signature and Date**

The certification must be signed and dated by the certifier and accompanied by the following statement:

I certify that the goods described in this document qualify as originating and the information contained in this document is true and accurate. I assume responsibility for proving such representations and agree to maintain and present upon request or to make available during a verification visit, documentation necessary to support this certification.

## ANNEX II

### PRODUCT-SPECIFIC RULES OF ORIGIN

#### Section A: General Interpretative Notes

1. For the purposes of interpreting the product specific rules of origin set out in this Annex, the following definitions apply:

- (a) “section” means a section of the Harmonized System 2012 (HS 2012);
- (b) “chapter” means a chapter of the Harmonized System 2012 (HS 2012);
- (c) “heading” means the first four digits of the tariff classification number under the Harmonized System 2012 (HS 2012);  
and
- (d) “sub-heading” means the first six digits of the tariff classification number under the Harmonized System 2012 (HS 2012).

2. Under this Annex, a good is an originating good if it is produced entirely in the territory of one or more of the Parties by one or more producers using non-originating materials, and:

- (a) each of the non-originating materials used in the production of the good satisfies any applicable change in tariff classification requirement, or the good otherwise satisfies the production process requirement, regional value content requirement, or any other requirement specified in this Annex; and
- (b) the good satisfies all other applicable requirements of this Origin Reference Document

3. For the purposes of interpreting the product-specific rules of origin set out in this Annex:

- (a) the specific rule, or specific set of rules, that applies to a particular heading, subheading or group of headings or subheadings is set out immediately adjacent to the heading, subheading or group of headings or subheadings;
- (b) section, chapter or heading notes, where applicable, are found at the beginning of each section or chapter, and are read in conjunction with the product-specific rules of origin and may impose further conditions on, or provide an alternative to the product-specific rules of origin;
- (c) the requirement of a change in tariff classification shall apply only to non-originating materials;

- (d) if a product-specific rule of origin excludes certain materials of the Harmonized System, it shall be construed to mean that the product specific rule of origin requires that the excluded materials be originating for the good to be originating;
- (e) if a good is subject to alternative product-specific rules of origin, the good shall be originating if it satisfies one of the alternatives;
- (f) if a good is subject to a product-specific rule of origin that includes multiple requirements, the good shall be originating only if it satisfies all of the requirements; and
- (g) if a single product-specific rule of origin applies to a group of headings or subheadings and that rule of origin specifies a change of heading or subheading, it shall be understood that the change in heading or subheading may occur from any other heading or subheading, as the case may be, including from any other heading or subheading within the group.

4. For goods of chapters 84 and 87 marked with a symbol ( † ), an optional methodology for satisfying the regional value content requirement of the product specific rule of origin shall apply. This methodology is contained in Annex III (Provisions Related to the Product-Specific Rules of Origin for Certain Vehicles and Parts of Vehicles).

**SECTION VI  
PRODUCTS OF THE CHEMICAL OR ALLIED INDUSTRIES**

**Section Note 1: Chemical Reaction Rule**

Notwithstanding the applicable product-specific rules of origin, a good of chapter 28 through 38 that is the product of a chemical reaction is an originating good if the chemical reaction occurred in the territory of one or more of the Parties.

For the purposes of this rule, a “chemical reaction” is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not chemical reactions:

- (a) dissolving in water or other solvents;
- (b) the elimination of solvents, including solvent water; or
- (c) the addition or elimination of water of crystallisation.

<b>Section Note 2: Purification Rule</b>	
<p>Notwithstanding the applicable product-specific rules of origin, a good of chapter 28 through 35 or chapter 38, that is subject to purification is an originating good if that purification occurs in the territory of one or more of the Parties and results in the elimination of not less than 80 per cent of the content of existing impurities.</p>	
<b>Section Note 3: Mixing and Blending Rule</b>	
<p>Notwithstanding the applicable product-specific rules of origin, a good of chapter 30 or 31, heading 33.02 or 37.07, is an originating good if, in the territory of one or more of the Parties, the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications results in the production of a good having physical or chemical characteristics that are relevant to the purposes or uses of the good and are different from the input materials.</p>	
<b>Section Note 4: Change in Particle Size Rule</b>	
<p>Notwithstanding the applicable product-specific rules of origin, a good of chapter 30 or 31, subheading 3204.17 or heading 33.04 is an originating good if, in the territory of one or more of the Parties, the deliberate and controlled modification in particle size of a good occurs, including micronizing by dissolving a polymer and subsequent precipitation, other than by merely crushing or pressing, resulting in a good with a defined particle size, defined particle size distribution or defined surface area, that is relevant to the purposes of the resulting good and with different physical or chemical characteristics from the input materials.</p>	
<b>Section Note 5: Standards Materials Rule</b>	
<p>Notwithstanding the applicable product-specific rules of origin, a standards material of chapter 28 through 38, except for a good of heading 35.01 through 35.05 or subheading 3824.60, is an originating good if the production of such good occurs in the territory of one or more of the Parties.</p>	
<p>For the purposes of this rule, a “standards material” (including a standard solution) is a preparation suitable for analytical, calibrating or referencing uses with precise degrees of purity or proportions certified by the manufacturer.</p>	
<b>Section Note 6: Isomer Separation Rule</b>	
<p>Notwithstanding the applicable product-specific rules of origin, a good of chapter 28 through 38 is an originating good if the isolation or separation of isomers from mixtures of isomers occurs in the territory of one or more of the Parties.</p>

<b>CHAPTER 39 PLASTICS AND ARTICLES THEREOF</b>	
<b>Chapter Note:</b>  Notwithstanding the applicable product-specific rules of origin, a good of heading 39.01 through 39.14, except for a good of subheading 3903.11 or 3907.60, that is the product of a chemical reaction is an originating good if the chemical reaction occurs in the territory of one or more of the Parties.  For the purposes of this rule, a “chemical reaction” is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.  The following are not chemical reactions: (a) dissolving in water or other solvents;

Notwithstanding Chapter Note 1, a good of this chapter containing sewing thread of heading 52.04, 54.01, or 55.08, or yarn of heading 54.02 used as sewing thread is originating only if such sewing thread is both formed and finished in the territory of one or more of the Parties.

**Chapter Note 4:**

Notwithstanding the textile and apparel specific rules of origin set out in this Annex, the traditional Japanese garment, kimono, or garment accessory, obi, satisfying the following requirements, is an originating good, provided that the good is made with fabrics produced in the territory of one or more of the Parties, and is both cut and sewn or otherwise assembled in the territory of one or more of the Parties.

**Women's or girls' kimono:**

For the purposes of this chapter, a kimono for women or girls is a garment worn by being wrapped around the body, is usually secured with a sash called an obi, and is:

- (a) classified in subheading 6208.99 for an undergarment, or 6211.49 for an outer garment;
- (b) made by cutting a 100 per cent silk woven fabric in five or more panels and by assembling and sewing them;
- (c) of 60 centimetres or more but not exceeding 75 centimetres in width between spine and wrist; and
- (d) with sleeves not fully attached to the body side and not sewn shut on the body side.

**Men's or boys' kimono:**

For the purposes of this chapter, a kimono for men or boys is a garment worn by being wrapped around the body, is usually secured with a sash called an obi, and is:

- (a) classified in subheading 6207.99 for an undergarment, or 6211.39 for an outer garment;
- (b) made by cutting a 100 per cent silk woven fabric in five or more panels and by assembling and sewing them;
- (c) of 60 centimetres or more but not exceeding 75 centimetres in width between spine and wrist; and
- (d) with sleeves almost fully attached to the body side and sewn shut on the body side.

**Obi (heading 62.17):**

For the purposes of this chapter, an obi is a garment accessory used as a sash that is wrapped and tied over a kimono, and is:

- (a) classified in subheading 6217.10 or 6217.90;
- (b) of a length of three through five metres and a width of 15 through 70 centimetres;
- (c) made by assembling and sewing two different woven silk fabrics into a bag-shaped form, or by folding in half and sewing one woven silk fabric into a bag-shaped form;
- (d) rectangular; and

### ANNEX III

#### PROVISIONS RELATED TO THE PRODUCT-SPECIFIC RULES OF ORIGIN FOR CERTAIN VEHICLES AND PARTS OF VEHICLES

1. For the purpose of satisfying the regional value content requirement of the product-specific rule of origin applicable to a good of HS 2012 subheading 8701.10 through 8701.30, or heading 87.02 through 87.05, a material listed in Table A used in the production of that good is originating if:
  - (a) it meets the applicable requirements for that material under this Annex; or
  - (b) the production undertaken on that material in the territory of one or more of the Parties involves<sup>6</sup> one or more of the operations listed in Table B.
2. For the purpose of satisfying the regional value content requirement of the product-specific rule of origin applicable to a good listed in Table C, a material used in the production of that good is originating if:
  - (a) it meets the applicable requirements for that material under this Annex; or
  - (b) subject to paragraph 3, the production undertaken on that material in the territory of one or more of the Parties involves one or more of the operations listed in Table B.
3. The value of the materials that are originating under paragraph 2(b) shall be counted as originating content, provided that the value counted as originating content does not exceed the applicable threshold listed in Table C of the value (Build-up Method/ Build-down Method) or net cost (Net Cost Method) of the good.

**Table A**

<b>HS Classification (HS 2012)</b>	<b>Description</b>
7007.11	Toughened (tempered) safety glass
7007.21	Laminated safety glass
8707.10	Bodies (including cabs), for the motor vehicles of heading 87.03
8707.90	Bodies (including cabs), for the motor vehicles of heading 87.01, 87.02, 87.04 and 87.05
ex 8708.10	Bumpers (not including parts thereof)
ex 8708.29	Body stampings and door assemblies (not including parts thereof)

---

<sup>6</sup> For greater certainty, one or more of the listed operations must be involved in the production of a material listed in Table A. Performing a listed operation on one or more parts or subsystems that are subsequently used in the production of a material listed in Table A is not sufficient to confer origin on that material.

ex 8708.50	Drive-axles with differential, whether or not provided with other transmission components, and non-driving axles (not including parts thereof)
------------	--

**Table B**

Complex assembly	Complex welding	Die or other casting
Extrusion	Forging	Heat treating including glass or metal tempering
Laminating	Machining	Metal forming
Moulding	Stamping including pressing	

Note 1: “Complex” means an operation that requires specialised skills and the use of machines, apparatus or tools that are especially produced or installed to carry out that operation, regardless of whether such machines, apparatus or tools were produced with the intention of carrying out that operation on a specific good.

Note 2: The operations referred to in Table B do not include the mere assembly of non-originating components classified as a good in accordance with Rule 2(a) of the General Rules for the Interpretation of the Harmonized System.
